FAQ
1. If the keyboard doesn't respond, please check if the keyboard USB cable is correctly inserted into the corresponding USB port on the computer, or try another USB port on the computer.
2. If you still feel that the keyboard responds slowly after inserting the keyboard USB cable to the computer, please review the USB cable to ensure it is not kinked. If the keyboard is inserted into a space for a long time, under a lamp or in the keyboard's box naturally before using again.
